# SET IT UP... ...THEN FORGET IT.

**ALLEN&HEATH / Contractor Series**  
**GR1/.GR05/.GR8A/.DR128/.DR66/.**

**The Contractor series** is a dedicated range of mixers and amplifiers that are compact, discreet, easy to install and simple to operate.

Ideal for installation contractors, because it means that the system can be set up and tailored to its application in situ, then left alone to do its job.

And the range is powerful enough, and flexible enough, to be used in a huge variety of environments; conference suites, stadia, pubs, hotels, theatres, ships, airports, retail outlets, theme parks etc.

The Stadium of Light, Hard Rock Cafe, The Millennium Dome or Eurovision Song Contest - the Contractor Series from Allen & Heath remains the perfect choice for today's multi-zone installations.

**The Contractor Series is:**

**DR128/.**

A 12 input, 8 output digital installation mixer with EQ's, compressors, limiters, gates and much more. Set up using WinDR system manager software.

**DR66/.**

A 6 input, 6 output, digital installation mixer with all the processing power of the DR128.

**GR1/.**

A 6 input, 3 output zone mixer with built in compressor/limiter, ducking and alarm functions with internal EQ.

**GR05/.**

5 input, 4 output zone mixer with mic and output EQ, ducking, muting and remote level functions.

**GR8a/.**

8 channel installation amplifier, each channel providing 60w RMS into 4 ohms, with channels bridgeable in pairs.
