

## Custom Control Release Notes

**V1.1.0**

 Refer to [www.allen-heath.com](http://www.allen-heath.com) for instructions on how to update the Avantis firmware and important notes about the update.

### **V1.1.0 July 2020**

Feature Release

#### **New Features:**

- AHM-64 compatibility
- Avantis compatibility
- Text Colour option added for Button, LED and Source Selector widgets

#### **Fixes:**

- ID286 Gain Reduction meter shows as unavailable on Stereo Group, Stereo Aux and Stereo Matrix
- ID294 Changing colour properties of multiple Chromatic Meters does not work as expected
- ID296 Gain Reduction meter on the right (R) channel of stereo inputs does not update correctly
- ID300 Custom Control app doesn't work with WiFi Mobile Data Assist

#### **Known Issues:**

- ID321 Text labels for Meters and Chromatic Meters are not editable in V1.1.0

### **V1.00 June 2019**

This is the first public release of Custom Control.
