

Released Engineering Change Notice

Product	GL2800
---------	---------------

Title	Master Distribution Link removal to accommodate Group pcb up-issue
-------	---

Date	4th July 2004
------	---------------------------------

Details Of Change

ON 003-370 PCB assy GL2800 master distribution, remove LK1 & LK2 from the build sequence. This will enable the pcb assy to be used with the issue 4 Group 1-2 pcb's. Up issue C5871_1 to c5871_1_1.

Reason for change

In up issuing the Group pcb to 4, the meter signal is taken to pin 10 on the box header which is linked to ground on the master distribution pcb.

This ECN supersedes ECN No.		Related ECNs
