

**Released Engineering Change Notice**

|         |              |
|---------|--------------|
| Product | <b>Zed 2</b> |
|---------|--------------|

|       |                                   |
|-------|-----------------------------------|
| Title | <b>AG6744-5 R22 value change.</b> |
|-------|-----------------------------------|

|      |                 |
|------|-----------------|
| Date | <b>Nov 2007</b> |
|------|-----------------|

|                          |                                                                                                                       |
|--------------------------|-----------------------------------------------------------------------------------------------------------------------|
| <b>Details Of Change</b> | RESISTOR VALUE CHANGE. ON 003-652 (PCB ASSY ZED-14 MONO INPUT) CHANGE R22 FROM AC2838 (OR 0805) TO AC4101 (68R 0805). |
|--------------------------|-----------------------------------------------------------------------------------------------------------------------|

|                          |                                |
|--------------------------|--------------------------------|
| <b>Reason for change</b> | Instability at high frequency. |
|--------------------------|--------------------------------|

|                             |                                                                                                                                                                                                  |  |  |              |  |
|-----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|--------------|--|
