Details updated: 09/2018

### Known Issues

232 - If the ASIO System Performance is set to 'Highspeed', on some PC's the driver crashes when the sample rate is changed between 44.1 and 48 kHz. The audio system disconnects and the MIDI stops working.

370 - Line input is displayed in Windows 7 Sound control panel for K2 when using Ploytec, ASIO\* compatible, Device Drivers.

ASIO is a trademark and software of Steinberg Media Technologies GmbH
